INDEX TO AGRICULTURAL ENGINEERING

Volume 18 — January to December, 1937

Issue	*Pages*
JANUARY	1- 48
FEBRUARY	49- 96
MARCH	97-144
APRIL	145-192
MAY	193-240
JUNE	241-288
JULY	289-336
AUGUST	337-384
SEPTEMBER	385-432
OCTOBER	433-480
NOVEMBER	481-528
DECEMBER	529-576

A

Accidents, Prevention of silo gas 104

AGRICULTURAL ENGINEERING (Agricultural Engineers)

(See also Agricultural Engineering Digest, American Society of Agricultural Engineers, Engineering, Extension, Research, What Agricultural Engineers Are Doing)

Cooperation in agricultural progress (editorial) 3

A New Year's vision (editorial) 3

Up-to-date bibliographies (editorial) 4

The agricultural engineer grows up (editorial) 51

Progress in terminology (editorial) 52

The agricultural engineer as a farm manager 62

The challenge of rural electrification to the agricultural engineer 65

Tillage, soil structure, and agricultural engineering (editorial) 100

Cost finding as a guide to agricultural engineering (editorial) 147

Engineering standards and acceptance (editorial) 148

What agricultural engineers have done for rural electrification 152

A classification of agricultural engineering application (editorial) 195

How agricultural engineers can best cooperate with the REA program 199

Agricultural engineering terminology (editorial) 243

Recognition from a sociologist (editorial) 244

Agricultural engineering in the animal industries (editorial) 244

Agricultural engineering and the new frontiers 245

Engineering analysis of agriculture (editorial) 292

Engineering the production of specific crops (editorial) 292

"Thermometers and thermostats" 293

Engineering in biology (editorial) 339

Agricultural engineering and its public 341

New horizons for agricultural engineers 346

Agricultural engineering publications (editorial) 387

Big problems for agricultural engineers (editorial) 387

Simultaneous operations (editorial) 388

Analysis of electric uses (editorial) 435

Reflected trends (editorial) 436

Broadened foundations (editorial) 483

An adequate philosophy (editorial) 484

Mechanized agriculture and civilization 501

Trouble (editorial) 532

AGRICULTURAL ENGINEERING DIGEST (A review of current literature) 33, 78, 130, 180, 230, 274, 328, 368, 424, 470, 520, 570

Agricultural lands, Management and use of 297

Agricultural progress and prosperity, How industry may assist in 305

Agricultural progress, Cooperation in (editorial) 3

Agriculture, Electrification of American 303

Agriculture, Processing engineering in 155

AIR CONDITIONING

Air conditioning applications to farm buildings 71

Engineering problems in air conditioning 204

Air conditioning of farm buildings 485

Alloys in spray mixtures, Corrosion tests of metals and 301

All-purpose tractor, Farm requirements of the small 209

All-purpose tractor from the implement engineer's viewpoint, Requirements of the small 211, 213

AMERICAN SOCIETY OF AGRICULTURAL ENGINEERS (See also Agricultural Engineering, Meetings, Necrology, News)

C. O. Reed wins McCormick medal award 217

The individual at Urbana (editorial) 243

Editorial policy (editorial) 291

Meetings and membership (editorial) 291

The John Deere gold medal 458

An experiment in meeting efficiency (editorial) 484

Anderson, Earl D.

The place of steel in farm building construction 164

Animal industries, Agricultural engineering in the (editorial) 244

Apples, Removal of spray residue from 261

Architectural beauty, Farm house design for 443

Arnold, Earl L.

Farm refrigerated storages 551

Award, C. O. Reed wins McCormick medal 217

Ayres, Quincy C.

Engineering's professional progress 158

B

Bainer, Roy

New principle in threshing lima bean seed 205

A flax seed plot thresher 363

Barger, E. L.

Comparative tests of fuels in low-compression tractors 311

Bean seed, New principle in threshing lima 205

Bell, Clive C.

Irrigation as crop insurance 453

Benjamin, B. R.

Farm requirements of the small all-purpose tractor 209

Bibliographies, Up-to-date (editorial) 4

Bingham, H. S.

Better milk with electricity 161

Biology, Engineering in (editorial) 339

Blasingame, R. U.

"Thermometers and Thermostats" 293

Bloom, Merle W.

Contour furrows simplified 402

Boss, William

Why build better farm buildings 307

Boyd, Geo. R.

Engineering aspects of farm operating efficiency 11

Bradshaw, M. A.

Prevention of silo gas accidents 104

BRICK (See Structures)

Brooks, F. A.

Systems for distributing fuel oil to orchard heaters 541

BUILDING (See Structures)

Byers, Frank M.
Tractor used as grasshopper catcher... 396

(Correction to above) ... 286

Dieffenbach, E. M.
Hose coupling for high pressure spray lines ... 214
Corrosion tests of metals and alloys in spray mixtures ... 301

DISEASE CONTROL (See Spraying)

DRAINAGE, LAND
Determining flood discharges from small watersheds ... 13
Drought and drainage (editorial)... 244
Status of land drainage in the United States ... 455

Drake, Raymond R.
Soil moisture conservation ... 15
Wind erosion and its control ... 197

DRIERS (Drying) (See Hay)

Drop inlets and other erosion control structures, Results of experiments on hydraulics of ... 253

Drop inlet soil saving dams... 349, 407

DROUGHT (See Conservation)

Drying seed corn with electricity... 149

Duffee, F. W.
Drying seed corn with electricity... 149
Tractor fuels in relation to tractor operating costs ... 352

Dynamometer, A simple low-cost drawbar ... 544

E

Easter, E. C.
What agricultural engineers have done for rural electrification... 152

Edgar, A. D.
Insulation under high humidity conditions ... 359

EDITORIALS (See subject matter concerned)

Edlefsen, N. E.
Effect of soil moisture characteristics on irrigation requirements ... 247

EFFICIENCY (See also Machines)
Engineering aspects of farm operating efficiency ... 11
Engineering studies of farms for maximum efficiency ... 116
Comparative efficiencies of hay storing methods ... 153, 196

Ekblaw, K. J. T.
Organization for promotion of better farm building ... 545

Ellison, W. D.
Measuring equipment used in watershed and hydrologic studies ... 107

ELECTRIFICATION, RURAL (See also Irrigation, Lighting, Machinery, Refrigeration, Spraying)
Repowering agriculture (editorial)... 52
The challenge of rural electrification to the agricultural engineer... 65
Electrification of a fruit farm... 68
Increasing the farm use of electricity 101
A British view of American rural electrification (editorial) ... 147
Drying seed corn with electricity... 149
What agricultural engineers have done for rural electrification... 152
Better milk with electricity ... 161
How agricultural engineers can best cooperate with the REA program... 199
Power development on federal reclamation projects ... 215
Rural electrification trends in Europe 259
Electrification of American agriculture ... 303
Analysis of electric uses (editorial)... 435
Educational programs for rural electrification ... 451
Experimental line building (editorial) ... 484
Electricity in fruit farm operation... 502
Responsibilities for adequate farm wiring ... 503

ENGINEERING
Engineering aspects of farm operating efficiency ... 11
The source of prosperity (editorial) 52

An engineer's view of the poultry housing problem ... 73
Engineering studies of farms for maximum efficiency ... 116
The spread of engineering (editorial) ... 148
Processing engineering in agriculture ... 155
Engineering's professional progress ... 158
A E C Effectiveness (editorial) ... 195
Engineering problems in air conditioning ... 204
Requirements of the small, all-purpose tractor from the implement engineer's viewpoint ... 211 & 213
Social understanding for engineers (editorial) ... 340
Technology and national policy (editorial) ... 340
Engineering remuneration (editorial) 388
Engineering the household ... 403
Technology reaches Congress (editorial) ... 435
Sequel to national planning (editorial) ... 532
Equipment, Quick-on and quick-off power farming ... 389
EROSION CONTROL, SOIL (See also Terracing)
Erosion control along highways ... 169
Wind erosion and its control ... 197
Results of experiments on hydraulics of drop inlets and other erosion control structures ... 253
Farm machinery problems in erosion control ... 449
Espe, D. L.
Comparative efficiencies of hay storing methods ... 153
Europe, Farm machinery trends in ... 318
Europe, Rural electrification trends in ... 259
EXTENSION
The final push in farm housing improvement (editorial) ... 4
Increasing the farm use of electricity 101
Extension objectives (editorial) ... 339
Lightning protection as an extension project ... 360
Farm structures research as a basis for promotion ... 412
Educational programs for rural electrification ... 451
What extension men want to know (editorial) ... 531
Terracing extension methods in Alabama ... 539
Organization for promotion of better farm building ... 545

Grasshopper catcher, Tractor used as ... 396
Gray, R. B.
Rural electrification trends in Europe 259
Farm machinery trends in Europe ... 318
Greene, Howard T.
Farm experience in forage curing ... 448

H

Hamilton, C. L.
Terrace project planning ... 315
Hamlin, F. H.
Comparative efficiencies of hay storing methods (editorial) ... 196
Hammer mill, Design and performance of a small automatic ... 445
Hanson, G. B.
Toward better farm buildings ... 497
HARVESTING (See also Combines)
Wagons for corn harvesting ... 19
Perilla harvesting (editorial) ... 388
Haswell, J. R.
Lightning protection as an extension project ... 360
HAY (Hay Handling)
The development of a low cost hay drier ... 25
Comparative efficiencies of hay storing methods ... 153, 196
Chopped hay storage in ventilated containers ... 251
Farm experience in forage curing ... 448
Spontaneous heating and ignition of hay ... 547
Recent progress in forage drying ... 499
Heimpel, L. G.
The agricultural engineer as a farm manager ... 62
Heitshu, D. C.
Requirements of the small all-purpose tractor from the implement engineer's viewpoint ... 213
Quick-on and quick-off power-farming equipment ... 389
Hemp for paper, Flax and (editorial) 292
Hendrix, Andy T.
Design and performance of a small automatic hammer mill ... 445
A simple, low-cost drawbar dynamometer ... 544
Hienton, Truman E.
Electrification of a fruit farm ... 68
Highways, Erosion control along ... 169
Holman, A. T.
Terrace cross sections as influenced by soil, crops, land slopes and farm machinery ... 5
HOMES (Houses) (See also Electrification)
The final push in farm housing improvement (editorial) ... 4
A study of the southern farm home in relation to comfort ... 9
Interior arrangement and decoration of farm homes ... 20
Farm houses that farm families want 122
Engineering the household ... 403

Design factors for small farm homes 442
Farm house design for architectural beauty 443
Low-cost housing (editorial) 531
Hose coupling for high-pressure spray lines 214
Hukill, W. V.
Instruments for farm structures research 59
Hull, William X.
A special problem in soil conservation 505
Humphries, W. R.
Results of field studies of small combines 265
Hurlbut, L. W.
Effect of tractor tire size on drawbar pull and travel reduction 53
(Correction to above) 151
Hurst, W. M.
Results of field studies of small combines 265
Recent progress in forage drying 499
Hydraulics of drop inlets and other erosion control structures, Results of experiments on 253
Hydrologic studies, Measuring equipment used in watershed and 107

I

Implement engineer's viewpoint, Requirements of the small, all-purpose tractor from the 211, 213
IMPLEMENTS (See Machinery)
Industry may assist in agricultural progress and prosperity, How 305
Instruments for farm structures research 59
INSECT PEST CONTROL (See Spraying)
INSULATION
Use of fill insulation in the construction of refrigerated rooms 159
Insulation under high humidity conditions 359
Structural insulation board for poultry houses 440
IRRIGATION
Characteristics of transverse Pitot tubes 21
(Correction to above) 74
Supplemental irrigation in the humid region 28
Supplemental irrigation in humid areas 165
Power development in federal reclamation projects 215
Effect of soil moisture characteristics on irrigation requirements 247

I. Equipment and procedure for moldboard plows 111
Load studies on tillage tools 117
Rootbed versus seedbed 207
The problem of soil tilth 320

TIRES, RUBBER
Effect of tractor tire size on drawbar pull and travel reduction 53
(Correction to above) 151
Conquering lister ridges with pneumatic tires 302
Traction research problems, The fundamental approach to tillage and 17

TRACTORS, AGRICULTURAL
(See also Fuels, Tires, Wheels)
Farm requirements of the small, all-purpose tractor 209
Requirements of the small, all-purpose tractor from the implement engineer's viewpoint 211, 213
Tractor fuels in relation to tractor operating costs 352
Tractor used as grasshopper catcher 396

Trullinger, R. W.
The fundamental approach to tillage and traction research problems 17

Tschudy, L. C.
Water conservation engineering in the northern Great Plains 63

V

Vapor for agricultural spraying, Water 216
Ventilated containers, Chopped hay storage in 251

W

Wagons for corn harvesting 19
Wall construction, Low cost two-unit 362

Warburton, Dr. C. W.
New horizons for agricultural engineers 346

Ward, H. M.
Structural insulation board for poultry houses 440

Water conservation engineering in the northern Great Plains 63

Watershed and hydrologic studies, Measuring equipment used in 107

Watersheds, Determining flood discharges from small 13

Weaver, J. W., Jr.
The development of a low-cost hay drier 25

WEED CONTROL (See Spraying)

Weeks, David
The economist's approach and objectives in land utilization 492

WHAT AGRICULTURAL ENGINEERS ARE DOING (pages) 29, 75, 124, 218, 268, 365, 414, 507, 555

White, E. A.
Electrification of American agriculture 303

Wichers, H. E.
Design factors for small farm homes 442

Wileman, R. H.
Quick-on and quick-off power-farming equipment 389

Williams, D. G.
Wagons for corn harvesting 19
Portable gasoline supply tanks for refueling tractors away from central fuel storage 58

Wilson, J. B.
Terracing extension methods in Alabama 539

Wind erosion and its control 197

Winters, J. S.
New principle in threshing lima bean seed 205
A flax seed plot thresher 363

Witzel, S. A.
Air conditioning applications to farm buildings 71
Chopped hay storage in ventilated containers 251

Y

Yarnell, David L.
Determining flood discharges from small watersheds 13

Z

Zingg, Austin W.
A method for finding terrace cross sections 296
